25X1

1. Little progress has been made toward the reconstruction of the six coke ovens in the Oswiecim Chemical Works which were in operation during the war. The capacity of the two ovens which are now in operation is 300 to 350 tons of semi-coke per day.
2. The methanol plant is now being reconstructed with Czech technical assistance. The planned date of completion is unknown.
3. The reconstruction of the carbide plant for the production of acetylene is almost complete. The USSR has provided the technical assistance.
4. The phenol synthesis plant, which was reconstructed [REDACTED] has only recently started operations. 25X1
5. A new plant for the production of synthetic rubber on the Soviet pressureless system is now being built. Its planned capacity is unknown. 25X1
6. A sodium chloride electrolysis plant is now under construction.
